## VSC/FCY

Virtual Safety Car (VSC)/Full Course Yellow (FCY) can be deployed when there is hazard on the track.

### Which label do you prefer for this feature?

This does not affect how this feature works, but how it is displayed in the user interface.

✓ FCY - Full Course Yellow

### How long should VSC/FCY last by default when it is activated?

You can extend the duration by the same amount by pressing the activate button again.

✓ 20 Seconds

### Speed for all cars while VSC/FCY is active

—  +

Delay in seconds for speed values to go from FCY active speed to full throttle speed after VSC/FCY ended.

— Delay in seconds before the speed values are adjusted after VSC/FCY ended. —
